Gun Designing

Manipulation

Photo manipulations are changes digitally applied to photos for a certain effect or aesthetic. These changes are typically done through a photo editing program, such as Photoshop.

Highlight

1 Place image -> in layer panel ->select create new fill -> in that select black and white.

2 .By using selection tool, select the area we want to highlight -> feather.

3 .Press B for brush tool, use it on selected part

For coloring:

Keep foreground color - Black

Keep Background color - White

For B&W:

Keep foreground color - White

Keep Background color - Black

Caricature

A caricature is a rendered image showing the features of its subject in a simplified or exaggerated way through sketching, pencil strokes, or through other artistic drawings (compare to: cartoon). Caricatures can be insulting or complimentary and can serve a political purpose or be drawn solely for entertainment. Caricatures of politicians are commonly used in editorial cartoons, while caricatures of movie stars are often found in entertainment magazines. In literature, a caricature is a distorted representation of a person in a way that exaggerates some characteristics and oversimplifies others.
